VALENCIA IN SHINY BLACK FINISH

with Metal Castings

A stylish chandelier from the Valencia Premier Collection envisions regal glamour. The emphasis on symmetry and the detailed ornamental metal "leaf" casting all point to classical inspiration, while the shiny high gloss monochrome finish places this lighting design in the contemporary era, making it a playfully luxurious addition to a wide range of settings.

ORENBURG IN BRUSHED NICKEL FINISH

with Clear Crystal Rods

It does not take a design connoisseur to recognize the regal splendor of the Orenburg home lighting collection. From the nearly indestructible construction of the drum frame (in the choice of warm natural brass or sleek brushed nickel) to the alluring interplay of light within the vertical crystal rods, the striking Orenburg luminaires bring more than a hint of luxury to any contemporary home setting.

Crystal decor is synonymous with "timeless luxury" thanks to the material's lasting utility and dazzling beauty. Quality crystal, like that of the Rotterdam lighting collection, not only looks exquisite - it turns everything and everyone within the reach of its radiance a little fabulous by association. The glamorous Rotterdam crystal shade bears a resemblance to a vintage square-cut crystal whiskey glass: so simple in form yet so subtly refined in aesthetic detail and pleasurable experience. The carved linear detailing of the ice-like crystal surface adds a sparkling texture and increased light refraction to the shade, infusing the surrounding ambience with just a hint of a celebratory mood

WHITFIELD IN NATURAL BRASS

Natural Brass Finish with Crystal Shade

PREMIER COLLECTIONS

Exuding crisp elegance, the Whitfield luminaire collection features sparkling, diamond-cut spherical crystal luminaires with the otherworldly clarity of virgin ice harvested from the depths of an ancient Antarctic lake.

Conceived with new traditional style interiors in mind, the round, faceted crystal shade is the undisputed centerpiece of the high-end Whitfield design: after all, there is a substantial amount of solid crystal involved.

To the "discriminating customer" with an appreciation of refined luxury and a craving for substantial crystal: the timeless Brussels collection of luminaires is our love letter to you! Reminiscent of a designer perfume bottle or a weighty powder jar borrowed from a vintage crystal vanity set, single-light Brussels pieces dazzle with a faceted, round diamond-cut crystal shade that is generous with illumination, glamorous in style and packs a powerful presence.

A luminaire from the Circulo premium lighting collection may be the very definition of a "conversation piece". Who could ignore a spectacular champagne supernova erupting directly overhead? Behold a majestically brilliant metallic orb with multiple extended antenna-like pins, each piercing a set of alternating shimmering discs. Light springs forth and bounces through the different textures brightening everything in sight. The glamorous illumination of the Circulo design will marvelously tie together a mid-century modern setting in need of a dazzling focal point
